Hi all,

This site is now officailly launched. I hope you enjoy the content and the community. Its taken a long time to complete but the effort has been worth it. Setting up a website is a far cry from woodcraft but the learning curve has been fun. At least now I'll be able to open up communitaction with other Woodcraft enthusiast all around the world.

There are still some things to go into the site. For one the gallery is up and functioning but there are no photos in it yet. I'm planning to put some photos of things I've made into it but I'm really looking forward to seeing what the new members have to offer.

The forum is also functional but hidden for the moment to allow me to ask you what topics you would like to discuss.

If you have any suggestions please leave a comment

Talk Soon :-)
